

CV (Music)

Name: Jason Yee

Birth: 08/05/2007

DESCRIPTION

With over a decade of professional drumming experience and eight years of self-taught music production expertise, I craft dynamic tracks across EDM, pop, and beyond. My journey began behind the drums, in which I was professionally trained, gaining proper rhythmic precision, before diving into the vibrant world of sound design and production. Passionate about sharing my creative process, I produce engaging music content for YouTube and other social platforms, blending technical skill with infectious energy to captivate audiences.

CORE SKILLS

- Ableton Live Suite 12
- Logic Pro
- Music Production and Beat-Making
- Mixing and Mastering
- Sound Design
- Songwriting
- Video Editing
- Drumming (ATCL Standard)

ACTIVE PROJECTS

Project "dotJSON"

I am in the process of developing a EDM artist profile that incorporates genres such as EDM, Pop (Hip-Hop/C-Pop), and Experimental. By merging AI and web technologies into my music production, my goal is to fuse electronic music with my cultural influences. I also aim to create immersive online experiences and visual elements to captivate my audience.
